

CHARGE STATION

E-Bike charger wall mounted platform

These instructions are for mounting the Stashed Charge Station to a wooden structure. Appropriate DIY experience is required to install this product correctly, if in doubt get a professional to help.

If you are unsure on how to fit or use this product, please reach out and ask our experts or look for fitting examples and instruction videos on our website www.stashedproducts.co.uk

Contents:

Charge Station x 1

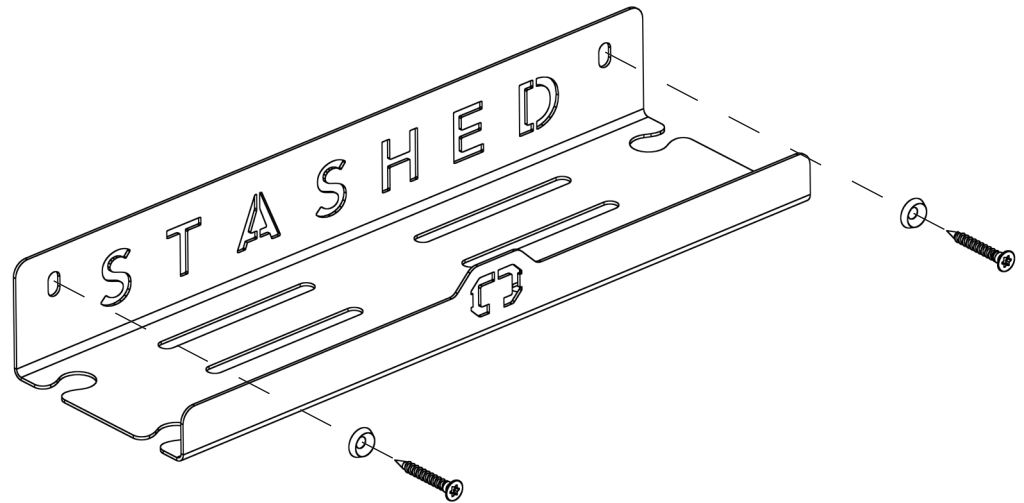

Cup Washer x 2

TX 5mm x 40mm Wood Screw x 2

Tools Required:

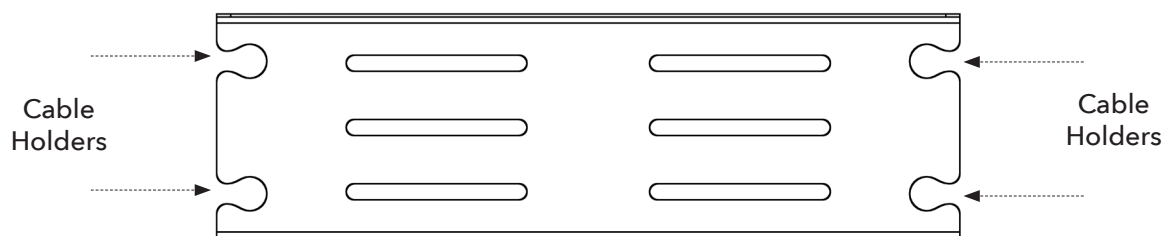

T25 TX driver

Spirit Level

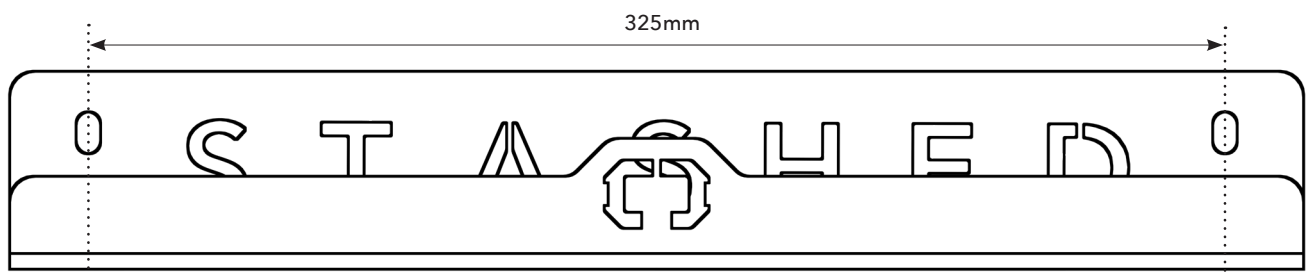

Fitting

1. Ensure suitable mounting points available. Screws are at 325mm centers. Mark hole positions and pre-drill holes. If mounting in to structure other than timber then insert suitable mounting component such as a raw plug.
2. Place screws through Cup Washer so countersunk head matches angled bore.
3. Screw to structure ensuring Charge Station is level. Ensure Cup Washer is flat against surface.

Use

Place charger on Charge Station so heat can escape from the vents. Place cables in to cut outs and run plugs back to cutout for storage.

Maintenance

Remove contents and wipe clean with a damp cloth. Wipe dry with a clean cloth. Do not leave damp or in a damp environment.
